The Mexico edition of IASC was held from June 12 to 17, 2017 with the collaboration of ICC Mexico. It provided firsthand knowledge from highly regarded professionals - arbitrators, lawyers, experts, academics and representatives of arbitral institutions - who shared experiences only available through a one-on-one approach.

Mock Case

The distinguishing feature of IASC is that all its lectures are delivered in the context of a Mock Case.

Attendees have the unique opportunity to prepare a case and present oral arguments as claimants and respondents during mock hearing rounds. The 2017 IASC Mock Case was based on three of the Annual Willem C. Vis Moot cases (editions 19th, 20th and 22nd). Although the problem arose from a contractual dispute governed by the CISG, the students were directed to focus exclusively on the procedural issues during the hearings, including joinder of non-signatory parties, the exclusion of witness statements and conflict of interest.

Prior to the mock hearings, students were provided with the skills necessary to become strong international arbitration advocates through two interactive workshops: one on oral advocacy and the other on written submissions.
